

Dealing with Personal Contamination with CPPs

ELEMENTARY FIRST AID MEASURES

- 1 Put the affected person in recovery position

- 2 Keep person warm

- 3 Seek medical help. Show the doctor the product label

In the event of an incident, a **quick response** can help to **avoid potentially SEVERE consequences!** Always **PROTECT YOURSELF** when administering first aid to a contaminated person!

Measures in the event of accidental contamination of the skin

- 1 Take off all contaminated clothing
- 2 Immediately wash the affected area of the skin
- 3 Take a shower as soon as possible
- 4 Put on completely **clean clothing**
- 5 **Decontaminate** protective clothing with water and soap or **dispose of** in case of heavy contamination (e.g. if interior of gloves or boots is contaminated)
